

B BARATHRUM
SAVUNMA SANAYİ TİC. LTD. ŞTİ.

ABOUT US

Founded in 1994, Barathrum Arms has stood as a trusted name in the Turkish firearms industry for over two decades, earning its reputation through consistent quality and craftsmanship in the domestic market. Building on this strong foundation and the trust of our customers, we expanded beyond Turkey's borders in 2014, bringing our products to clients around the world.

Today, Barathrum Arms operates from a 1,000 square meter state-of-the-art facility in Konya, where every product is shaped by the passion and precision of our dedicated team. Every product is manufactured in full compliance with CIP (Permanent International Commission for Firearms Testing) regulations, and our operations are certified to ISO 9001 (Quality Management), ISO 14001 (Environmental Management), ISO 45001 (Occupational Health & Safety), and ISO 10002 (Customer Satisfaction Management) — a comprehensive framework reflecting our commitment to quality, safety, sustainability, and customer care at every stage of production.

From our roots in Konya to clients across the globe, Barathrum Arms continues to combine tradition, craftsmanship, and innovation to deliver firearms of the highest caliber.

OUR MISSION/VISION

● Mission

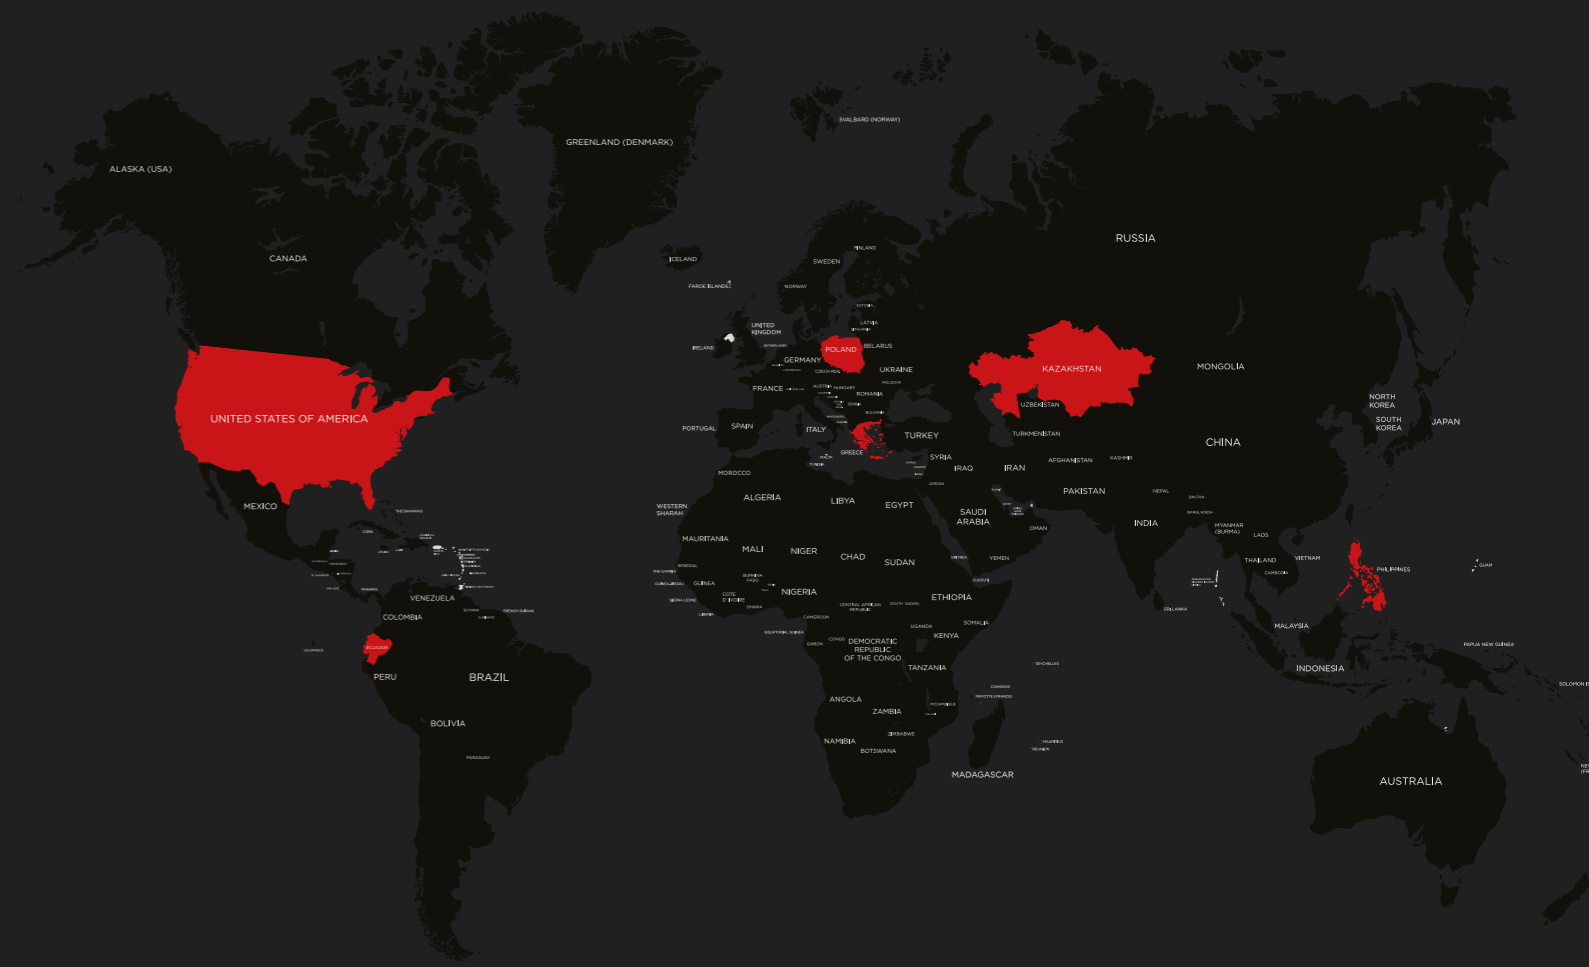

To design and manufacture firearms of uncompromising quality, precision, and reliability — combining traditional Turkish craftsmanship with modern engineering and manufacturing technology. Every product that leaves our facility in Konya is the result of decades of accumulated expertise, rigorous quality control, and an unwavering commitment to the safety and satisfaction of our clients. We strive to meet the evolving needs of shooters, collectors, and professionals across Turkey and around the world, delivering products that perform reliably under any condition. Guided by our ISO and CIP-certified processes, we hold ourselves to the highest international standards at every stage of production — from raw material selection to final inspection — ensuring that each firearm bearing the Barathrum name reflects our core values of integrity, durability, and excellence.

● Vision

To be recognized as one of the leading names in the global firearms industry — a brand synonymous with innovation, durability, and trust, wherever our products are used. We aim to carry the heritage of Turkish craftsmanship beyond our borders, building lasting relationships with partners and clients across new markets while staying true to the values that have defined us since 1994. Looking ahead, we envision continuous investment in technology, design, and our people — expanding our production capacity, broadening our global footprint, and consistently raising the bar for quality and performance in our field. Our goal is not only to meet industry standards, but to help define them, ensuring that Barathrum Arms remains a name our clients can trust for generations to come.
